SUMMARY

Self-motivated Frontend Developer with strong fundamentals in web technologies, seeking an entry-level role where I can contribute to UI development, improve performance, and collaborate within cross-functional teams.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), Responsive Web Design, Accessibility
Libraries / Tools: Swiper.js, Typed.js, AOS, EmailJS, Git, VS Code
UI/UX: Wireframing, Visual Hierarchy, Interaction Design, Usability Principles

PROJECTS

Thread & Bloom – Clothing Brand Landing Page

Tech: HTML5, CSS3, JavaScript, Swiper.js, AOS
- Designed a modern, responsive landing page for an online clothing brand.
- Implemented animated product sliders using Swiper.js to improve user engagement.
- Added scroll-based animations with AOS for smooth visual experience.
- Optimized layouts for mobile to ensure clean UI and consistent accessibility.

Coffee Website – Cafe Landing Page

Tech: HTML5, CSS3, JavaScript, Swiper.js, Typed.js
- Built an interactive café landing page with clean UI and responsive layouts.
- Integrated carousel sliders using Swiper.js to showcase menu/highlights.
- Used Typed.js to add dynamic text animations for improved user experience.
- Implemented reusable components and media queries for multi-device support.
